

Announcement

Milena McFeeters - CEO - milena.mcfeeters@steridose.com

TUMBA/MADISON Steridose has certified a new Authorized Repair Center in Canada.

Steridose has certified Inox Industries (Brampton, ON) as an Authorized Repair Center for refurbishment of Sterimixer® impellers. Inox Industries will serve all Steridose customers in Canada.

This will ensure a considerably quicker repair turn around that is important for critical applications.

Inox Industries has completed a training program and audit by Steridose verifying that proper procedures and tools are in place for providing these repair services. For more information, please contact:

The screenshot shows the Inox Industries website. The header includes the company logo and navigation links for various industries: Biotech/Pharmaceutical, Food/Beverage, System Design, Industrial, Energy/Oil & Gas, and Automotive. A main banner features a large stainless steel industrial system with the text 'What You Can Expect' and a list of benefits: Innovative design, Uncompromised quality, Best technical solutions, Product performance, Long lasting reliability, and Value added services. Below this is an ISO 9001:2008 Registered logo. The main content area is titled 'INOX INDUSTRIES INC.' and describes the company's history and capabilities. It lists various stainless steel equipment such as Heat Exchangers, Kettles, Melters, Pharm-Process Equipment, Pressure Vessels, Portable Paint Tank, Paint Mix Tanks, Process System & Equipment, Surge Tanks, Transportable Totes, Water Filtration Systems, and B31.1 Power Piping. The website also features sections for 'INOX DEDICATION', 'EMPLOYMENT', 'CONTACT US', 'INOX STANDARDS' (including FDA, BPE, GMP, and ASME), and 'QUALITY ASSURANCE DOCUMENTATION'.
